Almost Home provides a wonderful alternative for caregiving when you are not ready to put your family member in a nursing home, assisted living facility or have a stranger in your home. Instead, your loved one can interact with people their age in an environment that promotes an active lifestyle. Activity staff at our Center are trained in therapeutic recreation and their job is to keep your loved ones active and engaged.

Almost Home’s adult day services program is a cost-effective solution for caregivers who want to keep their loved ones at home. According to the Market Survey of Long-Term Care Costs in 2014, the annual cost of Adult Day Services is far less than Assisted Living, Home Care or Nursing Homes.

- The annual cost of Adult Day Services is $20,800.
- The annual cost of Assisted Living facilities is $63,468.
- The annual cost of Home Care ranges between $44,616 and $49,192.
- The annual cost of Nursing Homes ranges between $142,168 and $155,125 depending on semi-private or private rooms.

Day Services Program

Almost Home has a solution for families or individuals at a critical crossroads in their lives.

When an elderly or developmentally disabled adult can no longer stay at home unsupervised and a caregiver needs help providing the individual’s care or needs respite to sustain his or her own health or must work outside the home, then Almost Home can provide the answer you need.

Our homelike Center features professional medical services as well as therapeutic activities that foster socialization and sensorimotor stimulation; hot, nutritious meals; and safe, reliable door-to-door transportation – all provided by a caring, courteous staff.

Schedule a tour of our Center. Talk with our staff. See for yourself the scope and quality of services we provide. Or call us at 203-743-6456 for a phone consultation or to set up a no-obligation Try-It day.
